

Extend POS Lifecycle

Realize Impactful ROI with Stratodesk and VMware Retail Solutions

Accelerate Digital Transformation for Global Retail

Bring value to retailers and provide cost-saving solution: reduce security risks, maximize store uptime, and improve the customer experience.

Protect Retail Data and Consumer Trust

Operationalize Zero-Trust security, protect sensitive data & safeguard customer information across any app, cloud, & device.

Improve Customer & Employee Experience

Deliver omnichannel shopping experiences that drive customer loyalty and empower a distributed retail workforce.

Transform Retail Operations with Modern IT

Leverage modern digital retail infrastructure to bridge silos between digital and physical commerce.

Leverage Existing Investment

Secure your investment by extending the lifecycle of your endpoint hardware. Modernize and secure your endpoint/ POS infrastructure without the need for costly hardware refreshes.

Centrally Manage Your POS Endpoints

Allow retailers to provision, configure and manage their fleet of devices from one central location, on-prem or in the cloud.

POS Endpoint Management Done Right

Update, configure and monitor POS devices globally with a simple admin console - no costly operation interruptions and/or steep learning curves.
